

Hondo Elementary PTA Holds Meeting

More than 157 members and visitors were present for the opening meeting of the Hondo Elementary Parent-Teacher Association Tuesday night at the school. Mrs. W. T. Hardy, president of the group, conducted the business session.

Texas Law Says Stop For Buses

Texas school superintendents, news editors, and other citizens have been requested to give state-wide emphasis and interpretation of the oft-neglected Texas law which requires all vehicles to stop when approaching a school bus loading or unloading children. Three state agencies — The Texas Education Agency, the Texas Highway Department, and the Texas Department of Public Safety — joined in making the appeal.

Texas school buses were involved in 379 accidents in rural areas (outside city limits) during 1955. Three children and two adults were killed in these accidents. The law says, in effect, that when meeting or overtaking from either direction a school bus which has stopped on the highway for the purpose of receiving or discharging children, the driver shall stop immediately before passing, then proceed with due caution at a speed which is prudent and does not exceed ten miles per hour. The law does not apply within city limits.

Vehicles are not required to stop on highways with separate roadways when the bus is on a different roadway from that of a passing vehicle. Vehicles are not required to stop if the school bus is stopped in a loading zone which is part of or adjacent to a controlled-access highway and where pedestrians are not permitted to cross the roadway.

Motorists can identify a school bus easily because "SCHOOL BUS" appears in large letters across the front and rear of each bus. All public school buses are painted in a uniform yellow color and trimmed in black. School buses are equipped with flashers at the front and rear and usually mounted high on the bus. Flashers are used only when the bus is in the process of stopping or is stopped to receive or discharge children.

In conjunction with the educational program for drivers of all vehicles, the State Department of Education is preparing a bus drivers' handbook for distribution to the 8,000 school bus drivers in Texas. The manual will contain safety regulations affecting school bus drivers.

Court Fines Increase Over Weeks

Justice of the Peace George Kimmey collected \$300 in fines last week. Four of the 15 fines came from overgross weights, which is a \$25 plus court costs. The \$300 does not include court costs. During the past three weeks, Judge Kimmey has collected \$100 in fines, with 18 of the cases being overgross weight. He has had 36 cases during the time. There was \$315 collected during the week of Sept. 14, and \$115 in the week's paper.

Mrs. Ernest Dodds, program chairman, introduced R. W. Nations, principal of the Hondo Elementary School, who in turn presented the teaching staff for the current year.

Superintendent of Schools J. G. Barry, speaker of the evening, told the audience that he would not trade his present group of teachers for those he had seen in any other school. Stating that Hondo patrons were duly proud of their football team and their band, Barry emphasized that the English language was the main thing taught in Hondo schools — not extracurricular activities.

Barry also told the membership that original plans as to which children would be in the new school building called for allowing parents of any children in grades one through five make their choice as to the school they wanted their youngsters in. But he said if it seemed that all parents preferred the new structure, then the alternative would be to place all of the first three grades there, reserving the present building for a junior high.

The P-TA voted to hold the Halloween Carnival again this year. Mrs. Jack Sharp's fourth grade class won the room count and will be given money to buy a book. Punch and cookies were served at the conclusion of the meeting.

On Water Problems

STC Plans Meeting

Water problems of the South Texas area will receive top attention when the South Texas Chamber of Commerce convenes for its 30th annual meeting Oct. 7-8 in San Antonio.

The regional chamber has been working for the past year in sponsoring the organization of an underground water district in the Edwards reservoir 15-county area for the purpose of recharging the ground water basin.

Problems existing in the lower Brazos River watershed will be discussed in a water committee meeting and pending legislation to provide state financial aid in building surface reservoirs will receive attention.

The chamber's meeting will open Sunday afternoon, Oct. 7, with seven committee meetings.

VFW Sponsor Turkey Shoot October 7

Hondo's Veterans of Foreign Wars will again be in foxholes with real rifle fire zinging overhead on Oct. 7.

But this time, it's all in fun, as they crouch in a trench near the target they are watching, reporting hits via telephone to the firing line 100 yards away. The VFW is holding their eighth annual Turkey Shoot Oct. 7.

Last year, more than 2,000 rounds of ammunition were fired and about 45 Thanksgiving turkeys were bagged.

This annual shoot, at Hondo Air Base range, is the primary fund raising effort the post holds annually. It draws shooters, men and women, from a wide area.

Starting at 8 a.m., the shoot will end at 4 p.m. Contestants can select any hour between that time, as there will be no registering, team or group shooting.

MORE THAN \$200 worth of damages were recorded when this car, driven by Mrs. Manuel Duran collided with the side of Mrs. F. H. Hollmig's Dress Shop last Thursday. The accident happened as Mrs. Duran was turning into the alley beside the building and lost control of her car.

which will be open to the public. Committees include Water Resources, Edwards Reservoir, Agriculture and Livestock, Highways, Industrial, Wildlife Conservation and Tourist-Sports-Recreation.

The following morning, Monday Oct. 8, the seven committees will

Victor Gantz Dies After Long Illness

Funeral services were held Sept. 20, 1956, for Victor Gantz, 64 year-old St. Hedwig resident. Gantz died after an illness of several months.

Besides his wife, Catherine, he is survived by eleven children, Mrs. Henry Mueller, LaCoste; Mrs. Frances Woitena, San Antonio; Mrs. J. D. Waldrum, San Antonio; Mrs. Louise Shloss, San Antonio; and Felix Gantz, Mary Gantz, Albert Gantz, Regina Gantz, Hubert Gantz and Margaret Gantz, all of St. Hedwig. He is also survived by eight grand children, two sisters and three brothers.

Following the occupation of farming, he was a member of the Catholic church. Gantz was a veteran of WW I and was buried with military honors.

Hermann Sons To Have Speaker

The grand secretary-treasurer of the Hermann Sons in Texas, Fritz Schilo, San Antonio, will address the Hondo Hermann Sons Lodge No. 236 in Hondo at 8 p.m. Tuesday.

Hugh H. Meyer, president of the Hondo lodge, said Schilo will speak on the progress of a statewide membership drive currently being conducted by the Sons of Hermann.

report recommendations to the chamber's board of directors for adoption as a general work program for the next year.

Datus E. Proper of San Antonio, regional chamber president, will preside at the board meeting. Officers and directors will be elected for the coming year.

Former Congressman Lloyd M. Bentsen Jr., will address the luncheon, to be followed by a legislative forum. Panelists on the forum are Congressmen Clark W. Thompson, Galveston; Joe Kilgore, McAllen; O. C. Fisher, San Angelo; Judge John Young, Corpus Christi; Democratic nominee for Congress, State Senators George Parkhouse, Dallas, and Searcy Bracewell, Houston; and State Representatives Waggoner Carr, Lubbock, and Marshall O. Bell, San Antonio.

Bentsen will be moderator for the forum. Questions from the floor concerning both federal and state issues will be answered by the panelists.

Zinsmeyer Services Held In Lacoste

Mrs. Theresa Zinsmeyer died in San Antonio, Wednesday, Sept. 19, 1956 at the age of 89 years, 11 months and 27 days. She was born Theresa Biediger near Castroville, on Sept. 23, 1866.

She was baptized in the St. Louis Catholic Church at Castroville, being a life-long member of the Catholic Church and was married to Louis Zinsmeyer, who preceded her in death on Sept. 16, 1919.

To this union, twelve children were born, two of whom died in infancy.

Services were held at Castroville. Rosary was recited Thursday at 8 p.m. The Requiem Mass took place in Our Lady of Grace Church at LaCoste Friday, Sept. 21, at 9:30 a.m. Interment was in Our Lady of Grace Cemetery at LaCoste.

Mrs. Zinsmeyer is survived by her three sons, Rudolph and Leo, of Pearsall and Gus of Bishop; seven daughters, Mrs. Alfred Keller and Mrs. Eugene J. Keller of LaCoste, Mrs. Katie Tschirhart, Mrs. Emil Mueller, Mrs. George Tondre and Mrs. Oscar Reicherzer of San Antonio, and Mrs. Louis Ricks of Divot, 50 grandchildren, 88 great grandchildren, one sister, Mrs. John M. Mechler of LaCoste and one brother, Jacob Biediger, of Castroville. Pallbearers, all grandsons of the deceased, were Eugene J. Keller Jr., Louie Ricks Jr., Alfred Keller Jr., Henry Tschirhart, Claude Zinsmeyer and Roger Tondre.

Hondo PTA Sets Second Meeting

The Hondo High School PTA will have their second meeting Monday night, Oct. 1, at 8 p.m. The meeting will again be held in the high school cafeteria.

Everyone is urged to attend, for an interesting and important program has been planned on Civil Defense. The discussion will be led by a guest speaker.

Large Crowd Gathers For Hondo School Complaint

St. John's Will Hold Mission

A Mission at St. John's Catholic Church will be conducted by the Rev. William F. Blakeslee C. S. P., during the week of Sept. 30 to Oct. 5.

Masses each morning will be at 6, 7, and 8:15. Mission sermon every evening at 7:30. The exercises are open to anyone.

The Rev. Blakeslee, C. S. P., of Austin, is a member of the Paulist Mission band of the Southwest. Ordained in 1926 by the late Most Rev. C. E. Byrne, Bishop of Galveston, Father Blakeslee has been engaged in a variety of apostolic work in the South and Northwest. He served as chaplain of the Newman Club at the University of Texas for six years, was pastor of St. Austin's Church in Austin, pastor of St. Elizabeth's Church in Lubbock, and for more than ten years has been preaching missions in the Southwest and on the Pacific Coast.

The public is cordially invited to attend the services.

Board Will Discuss Findings At Meeting

More than 120 persons gathered at the Hondo High School auditorium Wednesday afternoon to hear Mrs. D. V. Streetman enter her complaint with the Hondo Independent School District.

Mrs. Streetman, who charged that "it is a known and admitted fact that in the lower grades, a white and negro student is retarded in learning and advancing where a large number of Mexican students are in attendance due to their language handicap. Further, that such Mexican students will learn and advance more rapidly where there are a larger number of white and negro students in attendance due to the association and the breaking down of the language handicap."

She also charged that "said School's administrative personnel and those acting with them have set up at said North Side elementary building a segregated school in a very discriminating manner which is unlawful, un-American and un-Christian."

Dr. Walter Meyer opened the 2 p.m. hearing. Frank Vance, attorney for the Streetmans, said some of his witnesses could not attend because the hearing was held in the early afternoon. He said one reason she filed the complaint was because

Mrs. Streetman is the only one with enough "guts" to do it.

First witness called to the stand was J. G. Barry, superintendent of Hondo schools. The questioning went like this:

Q Have you had any complaint from students who attended North Side school last year.

A No, but some didn't go back.

Q Aren't Mrs. Carver and Mrs. Enloe (first and third grade teachers at North Side elementary last year) considered about the best teachers you have.

A They're all good.

Bob Nations, elementary school principal, took the stand and testified that Mrs. Streetman had asked him to place her boy under a certain teacher. He also said Mrs. Streetman wanted to send her child to the North Side school but that he had told her at the time that it was full. To the question, "Was she very unhappy?", Nations answered, "yes."

George Ilse, 1104 20th St., took the stand and testified that he had contacted many persons about sending their child to the North Side school. He also said he "would not ask any Mexican or Negro to go there."

Ilse said, "Mexicans wanted to go to Central elementary and Negroes voted to come to Central elementary."

When asked why the first and third grades were settled on, Ilse said he didn't know "why the third was chosen," but that he "had a daughter in the first grade" last year.

Ilse said he secured a list of census of six year olds of first grade students and went through it eliminating those of the Catholic faith, since they would probably be sent to St. John's School, and Latin Americans. Ilse said he then went down the list in alphabetical order, calling each parent about sending their child to North Side elementary.

Ilse said when he talked to

Negro Man Identified Through FBI

Willie Ross, Negro male from the state of New York arrested here last week, has been identified as a parole violator.

Arrested by chief of police O. W. Swartzell, Ross was fingerprinted by the Medina County Sheriff's Department and later identified through the Federal Bureau of investigation.

Sheriff C. J. Hitzfelder said he received a telegram from the director of Albany, New York police, stating that Ross was a parole violator, having been charged with carrying a pistol. He is now in Medina County jail on a charge of being drunk in a public place, and has waived extradition. Ross will be released to officers from Albany, when they arrive.

New Well Located In County

By Dick Tatum

Three new locations staked in Medina County in recent weeks includes a wildcard 11 miles S. S. W. of D'Hanis.

Farnsworth and Chambers Co. will drill the 2,000-foot tester on the Carle Mercantile Co. land.

Al Brown has staked a 1,200-foot test well four miles S. W. LaCoste. It will be known as the No. 4 Water Improvement District No. 1 and is located in the Chicon Lake field.

In the Taylor Ina field, J. J. Pichinson has drilled a 1,500-foot tester 10 miles S. E. Hondo. The well, called the No. 1 Adolph Hutzler is now in process of completion.

Two dry holes were reported last week for Medina County.

Dugger and Holmes had a duster in their No. 1 Leo O. Schmidt, nine miles N. W. Devine. It was drilled to 1,530-feet in the Taylor Ina field.

A wildcard drilled in the Chicon Lake was also a duster. Operator was Schimmel Drilling Co., et al. Located three miles N. W. Natalia, it was drilled to 1,104-feet.

Medinans Honored At Meet

Miss Paula Raye Hoog of Castroville, and Walter Jungman of Devine received special awards at the annual Archdiocesan Council of Catholic Youth Convention held in San Antonio Sept. 23.

A large delegation of young people from both Castroville and Hondo attended the Convention, together with hundreds of other youth representing Catholic parishes throughout South Central Texas.

Miss Hoog, the daughter of Mr. and Mrs. Thomas Hoog of Castroville, was one of the five recipients of the Eagle of the Cross Award for outstanding service in Catholic Youth work. A diligent and zealous worker in her own parish Sodality, she is also vice-president of the Archdiocesan Sodality Union. In addition, she teaches Catechism in the Confraternity program and is also active in extra-curricular activities in St. Louis High School.

At the Convention, she was appointed chairman of the Spiritual Committee for the Archdiocesan Council of Catholic Youth. Bobby Taylor of Hondo, was appointed chairman of the Cultural Committee at the same time.

Also honored at the convention was Jungman who serves as adult sponsor for the Devine Sodality. He received the Pro Deo et Juvene (For God and Youth) Award in recognition of his services to the young people of his community.

MOST BEAUTIFUL PET winners in the St. John's Pet Show last Friday were, left to right, Jerome Reinburg, a cocker spaniel; Rudy Moos, a rabbit; Ricky Jones, king pigeon; and Pete Ulbrich, two king pigeons. Order of awards was Ulbrich, Jones, Moos and Rein-

burg. Places and ribbons were given according to the volume of audience applause. Punch and cookies were sold following the show, and all proceeds will be used to purchase new books for St. John's School.

Air Force Giving ROTC To Females

WAF Capt. Patricia Whitmore has arrived at the University of Texas to counsel first co-eds enrolling in the Air Force ROTC training program.

The University is one of 10 U. S. colleges selected by the Air Force to initiate the training of women officers through the ROTC.

This year, two programs for women ROTC students will be introduced. Freshmen will be eligible for four years of training, while junior co-eds will take an accelerated two-year program. The Air Force in the future expects to make commissions available only to students who complete the four-year course.

Enrollment will be voluntary and withdrawal permitted at any time before graduation and acceptance of a commission.

The co-eds will take the same courses as male ROTC students, but will have their own drill sessions and a separate class dealing with customs and courtesies of the service. Trainees who successfully complete the program will receive commissions as second lieutenants and will serve three years on active duty in the Air Force.

Hampshire Gilt Show

Termed Successful

C. B. Gaston

Hampshire gilt show for club members, held last day at Castroville, was a success. Winners were in following order:

LaCoste; Bippert; Castroville; Boehme, Castroville; Stein, Rt. 4, San Antonio; Bourquin, Rio Hondo; Gail Boehme, Castroville; Ralph Bayer, Dunlay; Ann Mico. The winning gilt was owned by Virgil Castroville, was entered in the area show at San Antonio, Sept. 25.

Pigs from these gilts are raised next spring and will return a gilt for further operation, which keeps the program in operation.

schedule of William Watter, representative of the Social Administration, for the quarter of the year has been set. He will be in Hondo on Nov. 13 and Dec. 11.

For Sale — One Brooklyn Bridge — Cheap

NO ONE could get us to fall for that famous old Brooklyn Bridge swindle! But we might be duped into deals that are far worse. Fast talking, smooth operating shysters are still trying to swindle the American public.

Take our nation's natural resources for example. You and I and over 165 million other U.S. citizens own these natural resources. But special interest groups are bent on making a big profit from our property. They are spending huge sums of money on expensive national advertising and using all manner of high powered influence to convince the public that the government should not develop these resources and that power from existing Federal dams should be sold and distributed by profiteering power companies.

Soil Bank Form Values

Redemption of Soil Bank certificates, an important item to many Texas farmers, has been explained by the United States Department of Agriculture.

Under certain circumstances, the certificates will be worth a little more than face value. But mostly, they are on par.

The Soil Bank chits earned by farmers for reducing acreages of wheat, corn and rice will be valued at 105 per cent of their cash value when exchanged for grains in the commodity Credit Corporation inventory or when used to redeem grain they have put under price support loans. This is a minor "give-away" to farmers, themselves, in order to reduce politically hot surpluses.

For exchange purposes, the value of the CCC-owned grain will be set at the current support price for the grade, class and location of the grain. The certificates may also be redeemed for cash at 100 per cent of face value.

CCC-owned grain will be available through warehouses operating under the Uniform Grain Storage Agreement. The grain will be delivered at local warehouses or terminal elevators but CCC will not supply grain at locations other than where it has stocks. In other words, no cross-country movement of grain into an area where it is not grown.

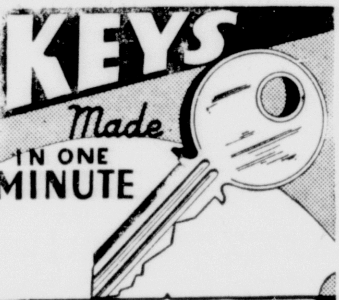

Wheat certificates may be exchanged for wheat, barley, rye, oats or grain sorghums — but not for the other two basic grains, corn and rice. This limitation applies to corn or rice acreage reduction certificates. Rice chits cannot be swapped for corn or wheat, and corn chits will not get rice or wheat.

Grains will not be available during harvest periods, CCC officials point out. CCC will not exchange a particular grain for certificates during the harvest season for that grain in the area. This harvesting limitation will also apply to redemption of grain under loan by use of certificates.

Texas Crops Show Slump Over Drouth-Stricken Area

Texas' prospective cotton crop estimate has been whittled down by 140,000 bales since the United States Department of Agriculture's previous guess of Aug. 1. The new prediction is for 3,460,000 bales this season.

Observers point out that dry weather in unirrigated sections has taken its toll and the production outlook is smaller than for any year since 1950, and is 2 per cent below average. Acreage allotments are a big factor in the reduction.

TURKEY growers in Texas are raising an estimated 4,457,000 birds this year. This increase of 47 per cent over the 1955 output has trade nervously wondering whether the market will absorb such an increase and still provide any kind of profit for the grower. The turkey crop is bigger than at any time since records were begun in 1934.

Over the United States as a whole, the number of turkeys is put at 76 million, or 16 per cent above last year.

As a result of this increase and the unsettled condition of the market, the U. S. D. A. has inaugurated a turkey purchase program to prop up the anticipated sag in demand. Turkeys which the government buys will be distributed to non-profit school lunch and institutional programs.

PECANS, the fruit of our state tree, may amount to 26,800,000 pounds, according to the Crop Reporting Board. The estimators, remembering a bad miss in their guess of last year, cautiously add that the casebearer insect is busy on the crop and may reduce it somewhat. Drouth is also cited as a factor that may cut his figure down before harvest time.

BROOMCORN, a minor state crop but one of importance in South Texas, is estimated at a low of 2,500 tons this season. This is only 26 per cent of the 9,500 tons of last year and 36 per cent

of the 10-year average.

A record-low crop of 25,800 tons is expected for the entire United States.

Production details for any of the above crops or other state production may be obtained by writing John C. White, Commissioner, Texas Department of Agriculture, Austin, Texas.

Delegates Named To Convention

The first fall meeting of St. John Altar Society was held Sept. 19, with one of the main topics the Archdiocese of San Antonio Convention to be held in San Antonio Oct. 2-3. Mrs. Ralph Jones and Mrs. Maurice Lutz were appointed delegates. Other members indicated they would attend the convention one of the two days.

A turkey dinner sponsored by the Altar Society and Mothers Club, jointly, will be held Nov. 18. Mrs. Henry Flory and Mrs. Gib Chapman, presidents of the two organizations, will appoint chairmen.

Mrs. W. A. Breidenbach was appointed the Confraternity chairman. Discussion clubs are being organized and each member of the parish is asked to join up with one of the clubs.

Reports were given by Chairmen, Mrs. Ed Ney, Mrs. Alfred Rohrbach and Mrs. W. O. Rothe. Hostesses were Mesdames Alfred Rohrbach, Paul Renkin, Ed Ney, J. T. Pennington and Ferd Rock Sr.

Carnival Set For October

The 30th annual San Antonio Hermann Sons Carnival, Friday, Saturday and Sunday, Oct. 5, 6 and 7, will be the biggest in carnival history, according to Fritz Rose, president of the San Antonio Hermann Sons Carnival Assn.

Seventy-five thousand tickets are being printed for the three-day event, Rose said. Admission will be 10 cents per person.

Rose based his optimism for a record attendance on the fact that this year's carnival will be the first in San Antonio Hermann Sons history to have a queen and duchesses.

Rose said Hermann Sons members and their friends from throughout South Texas are cordially invited to renew their acquaintances with San Antonio members at the giant celebration.

Starting time will be 7 p.m. Friday and Saturday and 4 p.m. Sunday. Valuable prizes will be awarded every night.

Friday night, the Highlanders of Fredericksburg will play for a free dance on the outdoor pavilion. Lee Kohlenberg and his Orchestra of New Braunfels will play on the roof garden at a pay dance Saturday night and the Texas Top Hands will play there Sunday night.

The queen will be selected a week ahead of the carnival at the annual Pre-Carnival Dance, Saturday, Sept. 29, on the roof garden.

MR. SAATHOFF ADDS A POSTSCRIPT ABOUT THE LOST TOWN

Mr. Davis:

Correct you are! There was a small settlement east of Hondo Creek, near Hiway 90. The Graff family had their home about 1/4 mile east of the Hondo Creek. Another home was that of Dorsey. On the west bank of the Hondo, at the crossing, Mr. Boelhave had a grocery store. Just a little farther west lived the McElmores and Mrs. Johnson (Mrs. Goza). And north of that was the Johnson home, now owned by the J. D. Hueschen estate. All this is history now. So is the Francisco settlement. The Rock School was abandoned and a new location made at Enterprise, now consolidated with Castroville.

Sincerely,
W. N. Saathoff

The columnist remembers that the ruins of the once elegant Graff house, mentioned by Mr. Saathoff, were standing just a short distance north of the now abandoned south road and a short distance east of the present bridge site and was plainly visible, despite the surrounding brush, as you approached the ford traveling west, when he first traveled the road 60 years ago — in the early summer of 1896.

At that time Mrs. Goza (she had been married more than once, it seems) was still living at her place. Later she purchased the home now occupied by Milton Batot and family and spent the last years of her life in Hondo, dying at an advanced age.

AN APPRECIATION

This columnist is in receipt of the following acknowledgment from the Texas Election Bureau, for thirty-eight years of service, and salutes his compeers, as named below:

Dear Mr. Davis:

No one can beat your record for long service to the Bureau, for it opened in 1918, according to our records. You might be interested to know that you share that honor with the following correspondents:

J. E. Webb, Madisonville, Tex.
C. E. Manly, Cotulla, Texas
John Banks, Mason, Texas
D. P. Rock, Woodville, Texas (unable to serve this year)
Sam Fore Jr., Floresville, Tex.
Mrs. Ruby Robertson, Brenham, Texas.

I assure you that we are very proud to have these correspondents continuously on our roll. I wish you could be in Dallas on some election night to see the Bureau in operation and to realize how grateful we are for the loyal service that has given the Bureau its reputation for speed, accuracy and integrity... all because correspondents get the figure as quickly as they can.

Thank you very much for you have done over thirty years!

AND FRIEND KELLER FOR AN ELUCIDATION

Dear Mr. Davis,

Two weeks ago in your column appeared the history of the Catholic church of Hondo. I ever gave you this data mentioned of the first church by the Late Rev. M. Metzger I think it was in '94 or '95 was a wooden structure on west side of the block, for a time it was used for the Mexican people. After he completed church, the mission was taken over by D'Hanis. He walked Hondo to Devine, and began work for the building of church at Devine. In the spring of '97, he held services at Frank Kempf farm Sunday of the church was completed in vine. He died in Devine and buried in the Catholic Cemetery in Devine in 1910 or 1911. I not recall the year.

No doubt some one in your will recall the old church.

Your friend,
Mat A. Keller

The article referred to by Keller was not intended as a story of the local church. It more or less a rehash of article which had appeared in this paper at the time of Metzger's death, a pastor who followed some time after Metzger.

The first little church mentioned above, far from being in not only still standing on north-west corner of the block has been enlarged to nearly times its original size by the addition of one or two other buildings to it and the whole into a spacious hall for use of the parish.

Corn Stalk Poisoning Strikes Drouth Areas

Cattle owners in some areas of the country will be faced with possible serious losses from corn stalk poisoning again this fall, the American Foundation for Animal Health warned today.

"Death losses from this condition may strike especially in some of the drouth areas," a spokesman said.

"Livestock farmers in drouth areas may be tempted to turn cattle or sheep into fields of stunted corn. It is often in these cases that trouble may develop. The damaged corn is high in nitrates and also often contains mold which may prove to be poisonous to livestock. Some molds may contain a toxic factor that makes the corn a complicated and deadly poison."

The poisoned stock show an uneasy walk, are extremely nervous and alert in appearance, but

after a short time they may go down.

Farmers wanting to salvage drought-damaged corn by turning stock into fields were advised to first check with a veterinarian or to test the fields by turning in just a few animals.

If the test animals do not become sick after a reasonable length of time, then the rest of the herd may be turned in with a fair assumption that the corn stalks are safe for feeding. However, the Foundation urges close observation during the time stock are eating such feed and prompt action if signs of sickness appear.

PERSONAL APPEARANCE

By Jerry June Berger

The Anvil Herald staff has been gifted with prickly pear jelly and cucumbers this week.

You thought a dethorned prickly pear was cow food? Frankly, we did too until MRS. MARSHALL FOHN brought in a jar of the prettiest cherry colored jelly we've seen and it tasted just as good as it looked.

We had heard that in Mexico the red fruit was sometimes used for candy making, but had never talked to anyone who knew what to do with them. MRS. FOHN and a friend from Oregon worked out the recipe using ripe pear apples for dark, sweet jelly or slightly green ones for a tart taste.

MRS. FOHN suggests picking them with ice tongs, then placing them in a sink and swishing them around in deep water to remove the stickers.

She then cuts them in half and boils them until the inside becomes mushy. After straining the juice, she uses three cups to five cups of sugar and one package of a boxed jelly mix. From then on she follows directions on the box. This makes three pints.

Tuesday, MRS. ALVN WIE-MERS dropped by saying that she had noticed several sweet potato pictures in the paper so she thought her big cucumbers might as well get into the act. Said she planted them on July 13 not expecting to make much of a crop but has had more than she could adequately handle. And she also told us about her uncle, HUGO MUMME, who has a gourd vine as big as a house and even bearing fruit up in trees where it has climbed. An edible type, ALICE says it tastes very much like squash. All this despite the drouth.

PA

One thing the drouth is partially responsible for killing is the proposed Worlds' Fair that Houston had planned for 1956. Remember about five years ago their chamber of commerce announced that they would hold the biggest one ever this year? But a couple of weeks ago we were talking with a newspaper man from Houston who said they had simply run into a brick wall with the proposal. He added they were not only having difficulty getting financial support locally but that they also had a lot of turn downs

from foreign countries which they hoped would want to construct buildings and displays.

He further said that they couldn't even get a Harris County Fair organized this year. So you see, things are tough all over.

PA

Adding to the gaiety of Friday night's football game was the fact that at least three different times Hondo had only 10 men on the field — one time even on a kick-off. The game was one-sided so it didn't seem to matter, but we were certainly surprised that Sabinal didn't protest the time Hondo had 12 men on the field!

HUMBLE RESEARCH

presents to the motorists of Texas
the world's finest automotive gasoline . . .

This new gasoline is designed for the growing number of automobile engines with very high compression ratios, and for cars that tend to knock on "premium" gasolines. In many cars, it is the only gasoline that will give you knock-free performance.

It has the highest octane rating of any automotive gasoline in town—the highest by far.

But octane rating is only one performance quality. Other improvements match Golden Esso Extra's increase in octane rating: this new gasoline also sets new quality standards for quick starting and fast warm-up, for protection against vapor-lock, for

minimizing engine deposits, for maximum acceleration, for protection against gum formation, for long mileage and maximum power.

It is the finest gasoline Humble has ever made—its performance rates it "premium over premium."

If yours is a car with a very high compression ratio—if your high compression engine tends to knock on "premium" gasoline—fill up with Golden Esso Extra at the golden pump under the Humble sign. You'll save the extra cost through performance, operating economy, and added gasoline mileage.

Golden Esso Extra is
One of Three Great
Humble Gasolines

Golden Esso Extra is for cars with very high compression ratios. But there are hundreds of thousands of automobiles in Texas that give perfect performance on Humble's famous Esso Extra gasoline, and there are others that perform well on regular grade Humble Motor Fuel.

Humble provides all three grades: Golden Esso Extra—premium over premium; Famous Esso Extra—premium; Humble Motor Fuel—regular.

Thus: you pay only for the quality your car requires.

Those whose cars require Golden Esso Extra quality will find it profitable to pay more for this new gasoline.

But for many, Famous Esso Extra is the best gasoline they can use. No. 1 in Texas, first in sales among the "Premiums" because it's first in quality. This great gasoline will continue to be the leader in its field.

For others, Humble Motor Fuel sets the pace for performance and mileage among the "Regulars." It is the only regular gasoline in Texas that contains a patented solvent oil to keep your engine clean.

Use and pay only for the gasoline your car requires . . .
You'll find it under the Humble sign.

Hondo Complaint

NO.

TO THE HONORABLE TRUSTEES OF THE HONDO INDEPENDENT SCHOOL DISTRICT,
OF HONDO, MEDINA COUNTY, TEXAS. GREETING:

1. Now come D. V. Streetman and wife, Kathryn Streetman, who reside in the Hondo Independent School District, in Hondo, Medina County, Texas, hereinafter called Complainants, complaining of the Hondo Independent School District, hereinafter called the School, and would show:

2. That Complainants reside within the boundaries of said school district, and have two children attending the public school of said district, one of such children being in the 2nd grade and the other being in the 6th grade.

3. That the Trustees of said school district are: Dr. W. E. Meyer, president; R. C. Rath, secretary; A. C. Gilliam; H. H. Becker; B. A. Schweers; Henry Lindeburg; and Herbert Moehring, all of whom reside in Medina County, Texas.

3. That as of the 7th day of September, 1956, there were 752 students enrolled in the elementary grades of said School; that said elementary school consists of three buildings where such students attend classes, namely: a) Central elementary; b) west side; and c) North side. There were 541 such students attending classes in the Central elementary building; 155 such students attending classes in the West side; and 56 such students attending classes in the North side building.

4. That at the North side building there were two classrooms, one with 25 students in the second grade, 24 of whom were white students and 1 of whom was a Mexican student. The other class room had 31 students in the fourth grade, 30 of whom were white students and 1 of whom was a Mexican student.

5. That the balance of 93 students in the second grade were attending the Central elementary building, 30 of whom were white students, 59 of whom were Mexican students, and 4 of whom were negro students.

6. That the balance of 77 students in the fourth grade were attending the West side building, 27 of whom were white students, and 40 of whom were Mexican students.

7. That it is a known and admitted fact that in the lower grades a white student is retarded in learning and advancing where a large number of Mexican students are in attendance due to the language handicap. Further, that such Mexican students will learn and advance more rapidly where there are a larger number of white and negro students in attendance due to the association and the breaking-down of the language handicap.

8. That said School's administrative personnel and those acting with them have set-up at said North side elementary building/segregated school in a very discriminating manner which is unlawful, un-American and un-Christian. Same is a segregated school for the following reasons:

a) The School in its administrative capacity have ordered students in the fourth and fifth grade, except for those fourth graders attending North side, to attend classes at the West side.

b) Students attending the other elementary grades, other than those attending said North side, are required to attend the class-room their teacher selects without consideration of the matter of whether such student is white, Mexican or negro.

c) During the previous school year the two classes taught at the North side were of the first and third grade and this school year there are the second and fourth grades; and the majority of the students attending last year are attending there this year.

d) The ratio of white students compared to the Mexican students attending said North side are 30 to 1. The same classes in the balance of the elementary school ratio of whites to Mexicans is 2 to 1, that is two Mexicans to one white child.

e) White students were solicited and induced to attend said North side with the promise there would be no Mexicans attending. Last year there were no Mexican students attending said North side, and this year only two Mexicans are attending.

9. That the premeditated, studied and planned action of the School authorities in setting-up a "private school" at West side with State and tax-payers money is unconstitutional, un-American and certainly un-Christian.

ARTHUR BRUCKS, Hondo, received a broken arm when this car overturned on a curve near Verdina on September 22. Brucks said the car rolled only one time.

—Polaroid Staff Photo

WHEREFORE, we petition you Honorable Trustees to consider this complaint; to grant us a hearing before your Honorable Body; that after such hearing you will order such discrimination and segregation to discontinue at said North side and that students attending classes there be selected in the same manner as those attending other elementary classes as to the number of white and Mexican students.

Respectfully submitted,

D. V. Streetman

SCS Zone 3 Election

Tuesday, Oct. 2, is the day when farmers owning land in Zone 3 of the Medina Valley Soil Conservation District will elect one of their neighbors to represent them on the District Board of Supervisors for the next five years. The election will be held on the Eugene Saathoff ranch, 20 miles northwest of Hondo at 2 p.m. on that date.

Any farmer who owns land within Zone 3 is eligible to vote in this election. Following the election, there will be a tour of the Saathoff ranch to observe results of brush control, range seeding and proper grass management. Zone 3 is that portion of the District that lies north of Highway 90 between the Tarpley

Road and the Dunlay-Quih-Medina Lake Road. The north boundary is the Bandera-Medina County line.

All landowners and their wives who live within Zone 3 are urged to attend this election and tour. Neither Federal nor State government has a voice in governing the local Soil Conservation District. This election is each landowner's opportunity to have his say in governing his Medina Valley Soil Conservation District.

Brush Control

Brush control operations are in progress on two ranches in the District. W. J. Tomecek is doing 200 acres of cedar on his ranch on the west side of Medina Lake. Brush control will be followed by seeding the land, which is rough

stony hill country, to slender grama.

James A. Cameron of D'Hanis is rootplowing and seeding 40 acres of his ranch to blue panic this week.

Robert Riff, who farms at New Fountain, completed a one-fourth mile diversion terrace on his farm this week.

Conservation Plans

Complete conservation plans have recently been made on the following farms:

James P. Settles, George Meier, Russell J. Watson, E. H. Green, R. M. Stanton, Burl C. Joplin and R. J. Mangold, all of the Devine-Natalia-LaCoste-Lytle area; Ermen Haby, Carl Rudinger, A. F. Huegele and Clarence Saathoff, of the Hondo area.

Medina Products, Inc. Opens For Business

Hondo's newest industry — Medina Products, Inc. — is now open for business on the north row of the Hondo Air Base property. Don Benedict and associates are owners and operators of the new business.

Medina Products Inc. specializes in reinforced plastics, the type used in modern sports cars and fiberglass boats. Working under the "Speed-Glas" trade name, the company has been in operation since April. National advertising has resulted in communications from as far as the Belgium Congo, Iran and South America.

Benedict says the operation of Medina Products will be three fold — sales of speed-glas boat covering kits and plastic supplies, the operation of a custom

fiberglass shop and the manufacture of plastic products. He is very optimistic about the future of reinforced plastics.

The "Speed-Glas" product is made of a polyester resin, which changes into a solid by the addition of a hardening agent. According to Benedict, it is waterproof, rustproof, rotproof, acid resistant, strong, light in weight and colors can be molded into the plastic itself.

The reinforcement generally used is fiberglass cloth, mat, tape or chopped fibers.

Uses of plastic materials are decorative panels, car parts and patio roofs, swimming pools, boats, car bodies, outdoor signs, watering tanks, toys, luggage and practically everything that can be made, Benedict states.

The company also makes repair kits for concrete tanks, water pipes, broken baseball bats, rotted out window sills, broken ladders etc.

Benedict invites all interested persons to drop by the shop any afternoon or weekend.

This Week --In Washington

By Clinton Davidson

When you put the Democratic and Republican farm platforms side by side the most surprising thing about them is their remarkable similarity. You would almost need a label to tell them apart.

The only real farm issues are (1) which party is more responsible for low farm prices, and (2) which would do more to restore fair prices and income.

Both state as their major objective 100 per cent of parity prices and income for farmers. They differ only moderately over the level of price supports for cotton, wheat, corn, rice and peanuts at 90 per cent of parity. Republican supports for those ranging from 82 per cent to 85 per cent of parity.

It is only natural that in an election campaign each party should attempt to place the blame for low prices on the other. Fact of the matter is, prices were going down before the Democrats moved out of the White House, and they've been going down most of the time since then.

The reason for that decline is less political than it is economic. Both parties have hesitated to take the drastic measures that would have been necessary to force a big cut-back in production. Under both parties U. S. prices have been above world market levels because costs of production were higher than in other producing countries.

Other than price support levels, there is little difference between what the two parties promise to do if elected. Both recognize surpluses as the biggest farm problem, and each promises to take pretty much the same steps to remedy the situation.

Republicans and Democrats alike favor the soil bank payments to compensate farmers for taking still more land out of production until demand catches up with the supply. Both favor a vigorous export program to make our products competitive on world markets.

The next meeting will be with Mrs. Sterl Haby Oct. 11.

HEARING...

(Continued From Page One)

Mrs. Streetman, she said, "I'm just sick because we didn't get back from our vacation in time to get my child in at North Side."

At this point, Vance entered a letter from Mrs. William S. Houston, a former Hondo resident. The letter said that "Suzanne attended North Side school after Dr. Meyer called me and asked if I was interested in sending my child to North Side. He said there would be 25 pupils and not over 30, with Mrs. Enloe as teacher."

"I told him several other children on that side of town and in Suzanne's grade, would probably be delighted to attend also. One of the names I gave him was Rodriguez. He said 'Well, we're not discussing those right now'."

Dr. Meyer returned by saying that a teacher had not been appointed at the time he contacted Mrs. Houston and that the School Board thought the situation could be explained better to "whites" than to those of Mexican descent. He said, "the letter is definitely wrong."

Mrs. Streetman then took the stand, and said she had been assured that her son, Stephan would go to Mrs. Carver's room. She said she received a telephone call from Nations on Labor Day of 1955, saying that Stephan could not go to North Side because it was full.

"I was not trying to get Stevie in the North Side school," Mrs. Streetman said. "I am only trying to give each child the same chance. At the time, I was trying to get Stevie in Mrs. Carver's room."

Mrs. Streetman said she would not let her child attend a class taught by a Negro teacher.

W. T. Hardy was called by Barry, and testified that he did not tell him the school would be segregated but that those classrooms were desperately needed to house two classes. He volunteered to send a first grader. This year, he did not send the child back because of the taxi service — he would have had children at three different schools.

Mrs. Antonio Garcia stood up and said her people did not know the situation existed until they read Mrs. Streetman's letter in the Anvil Herald.

Vance said the information had not been available to Mexicans so they could volunteer for the school. Barry explained an article had been in the paper for several consecutive weeks on the front page, for all to see.

Vance said the story had appeared but had been placed with a different headline each time.

The hearing closed, with the School Board hoping to meet sometime next week to discuss the matter and make a decision.

IN RE: DESIGNATION OF UNDERGROUND WATER RESERVOIR

THE STATE OF TEXAS
COUNTY OF TRAVIS
On this the 4th day of September, 1956, the State Board of Water Engineers of Texas met in regular meeting at its office in Travis County, Texas, with the following members present, to wit:

R. M. Dixon, Chairman
H. A. Beckwith, Member
O. F. Dent, Member

There came on to be considered by the Board the matter of designating an underground water reservoir or subdivision thereof.

And it appearing to the Board that any designation of an underground water reservoir or subdivision thereof in the southern portion of the Edwards Plateau may include all, portions thereof, or segments of the Texas counties of Atascosa, Bexar, Blanco, Comal, Edwards, Gillespie, Guadalupe, Kendall, Kerr, Kinney, Hays, Medina, Real, and Uvalde;

And it further appearing to the Board that it has jurisdiction on its own motion, under the provisions of Article 7880-3c, Vernon's Annotated Civil Statutes of Texas, to set a hearing for designation of an underground water reservoir or subdivision thereof in the region embraced generally by the aforementioned counties;

And it further appearing that due notices, postings and publications thereof will have to be made in the manner and for the time provided by Articles 7880-15 and 7880-21, Vernon's Annotated Civil Statutes.

IT IS, THEREFORE, ORDERED by the State Board of Water Engineers of Texas that a hearing will be held before this Board at ten o'clock in the morning on the 8th day of November, 1956, in the Municipal Auditorium in the City of San Antonio, Bexar County, Texas, for the purpose of designating all, portions thereof, or segments of the Texas counties of Atascosa, Bexar, Blanco, Comal, Edwards, Gillespie, Guadalupe, Kendall, Kerr, Kinney, Hays, Medina, Real, and Uvalde as an underground water reservoir or subdivision thereof.

On the date set for hearing, any the following counties, to wit: Atascosa, Bexar, Blanco, Comal, Edwards, Gillespie, Guadalupe, Kendall, Kerr, Kinney, Hays, Medina, Real, and Uvalde; and one copy shall be published in a newspaper of general circulation in said area of the proposed designation once a week for two consecutive weeks, the first publication or publications thereof to be made at least twenty (20) days prior to the date of said hearing.

person whose land is included, or would be affected by a designation of any or all of said counties as an underground water reservoir, or subdivision thereof, may appear and offer testimony to show that any areas concerned would, or would not, be a part of said underground water reservoir or subdivision thereof; and evidence may be presented in person, by attorney, or by affidavits; and the boundary designation may thereafter be made pursuant to said hearing based on the records of the Board of Water Engineers and all evidence adduced at said hearing.

It is further ordered that a proper notice of such hearing which shall include a copy of this order shall be prepared, and one copy shall be posted at least fifteen (15) days prior to hearing date at the Courthouse door in each of the following counties:

Upon motion made by O. F. Dent, seconded by H. A. Beckwith, the foregoing order was passed by the unanimous vote of all members, all members voting "aye" and no one voting "no." PASSED, APPROVED and ORDERED, at Austin, Texas, this the 4th day of September, 1956.

BOARD OF WATER ENGINEERS
R. M. Dixon, Chairman
ATTEST:
Ben F. Looney, Jr., Secretary

You will, therefore, take notice that said hearing for designation of an underground water reservoir or subdivision thereof will be held as provided in said foregoing order, and you will further take notice of all the facts, conditions and terms therein set out. (Seal)

Red Cross Needs New Fund

The Medina County Chapter of the American Red Cross is dedicated to providing four services to the citizens of this county — home service, disaster service, public information and fund raising.

Of these services, the Red Cross is more concerned with home service. They want to help the families of men and women in the Armed Forces and veterans and their dependents, meet personal and family problems.

So far, the greatest number of cases have wanted help in counseling, communications and assistance in procuring emergency leaves. To further this program and make it more readily available, the Medina County Chapter has provided an assistant home service worker at Hondo, Castroville, LaCoste, D'Hanis and Natalia.

All of these workers are volunteers and do not receive a salary. Although Medina County has not had the occasion to call upon the disaster service, it is readily available when needed.

Public information consists of informing the public as to what the chapter is doing, its meetings, officers etc. News stories, when local interest is aroused, are also included.

All of Red Cross' funds come from voluntary contributions. This year, business houses in the Devine area have been asked to contact their own employees for contributions. Although the campaign is not yet complete, several business firms are displaying 100 per cent stickers.

If you want to share in this work, contributions may be left at any store displaying a 100 per cent sticker or mailed to Joy L. Tilley, chairman, at Devine. Checks should be made payable to the Medina County Chapter, ARC.

Mrs. Tally Burnett, nee Miss Laura McLemore, died in a San Antonio hospital on the Sunday just passed. She was a member of one of the county's wealthiest families, had spent her girlhood days on what was then (1916) known as the Goza place just west of the Hondo Creek bridge and on the south side of the highway. While the area was still a wild frontier, she was married to Tally Burnett, one of the big stockmen in the early days of this section, who failing to adjust himself to the change from "free grass and free water" on the advent of barbed wire, suffered severe financial losses. He preceded her in death by more than 20 years. One son, Ed Burnett, resided in Hondo at the time of her demise.

After a suspension of activities during the heat of the summer, members of the T. B. C. Club gathered at the home of Miss Mary Kempf Thursday afternoon "eager to get to work."

James Whitlow, editor of the Jourdan News and brother of Mrs. R. P. Thomas, then a resident of Hondo, died in Jourdan.

J. W. Brown's two-story iron-clad building being erected next to his store on Bandera Ave. was nearing completion. Most of the material was moved from Bloomington, Victoria Co., where he had formerly been in business.

Criminal Docket

Lawrence Holland, DWI, fined \$100 plus three days in jail.

Bruce H. Dolph, DWI, fined \$150 plus three days in jail.

Ahard Koehler, DWI, fined \$100 plus three days in jail.

Marion R. Dubose, DWI, fined \$200 plus three days in jail.

Marshal Davis, aggravated assault with a motor vehicle, fined \$25.

Jose M. Bustamante, DWI, fined \$100 plus three days in jail.

Ernest Gonzales, DWI, fined \$100 plus three days in jail.

Louis Garza Sanchez, DWI, fined \$250 plus 30 days in jail.

J. B. Ney, for many years Commissioner from the D'Hanis precinct, is announced for reelection. L. J. Finger and Joe Langfeld are announced as his opponents.

The postoffice, then on the south side of the railroad, moved into its new building between the bakery and its former location. "As more room for the office was badly needed," said the editor, this is a change which will be greatly appreciated."

Dr. Thomas was at the Armstrong Hotel "where he will remain until the 30th instant for the practice of dentistry."

Rev. J. Fariss announces that he will preach on "the doctrine of infant baptism and church membership on the fourth Sunday at Tehuscana and on the fifth at Hondo." "There will be no 'fighting' of other denominations."

District Attorney C. C. Harris returned from Rocksprings where he had been attending District Court.

Citizens of D'Hanis were devising ways and means to build a new Catholic church "at the depot."

Seco Tries To Twist News To Suit His Private Need

Editor's note: The Seco Philosopher on his Johnson grass farm is trying to twist international news around to suit his personal needs, his letter this week indicates.

Dear editor:

According to an article I read in a newspaper yesterday afternoon while I was out here hard at work managing my farm, some people might think it was a queer use of the word manage to be sitting in the shade watching the sky and wondering if a cloud way off in the distance could work itself up into a rain storm, but they're the kind of people who can't understand how a man in town can be managing his store by standing out on the curb in front watching the traffic go by or arguing football with some friends, at any rate, according to this article, the United States is considering putting up half a billion dollars to pay ship owners not to use the Suez Canal. If they'll go the long way around, the U. S. will pay them the difference in cost.

Now it's not my job to pass on these things or to figure out why it's the job of the United States to rush in and solve every crisis that turns up in the world, although it may be the newspapers' fault, if they weren't so all-fired determined to get all the news and left a few crises unreported and a Washington never heard about them, the chances are they might fizzle out on their own, like a tree falling silently in the woods with nobody there to hear it, but when Washington has half a billion dollars to turn loose, I'm interested, doesn't make any difference if I'm not a foreign citizen.

Here's the thing, I've got a little land in the Soil Bank, but the income from that won't quite see me through. Now I don't have a ship, but thunder, I could start building one, couldn't I? And besides, Washington's not going to balk at a technicality. When you're dealing with a threatening crisis, hang the expense.

For a reasonable figure, I'll agree not to send any ships through the Suez Canal. I'll even do better. I'll agree not to send

Owls Take Easy 47-7 Victory Friday

Scoring in every quarter, Hondo's big, powerful Owls rolled to an impressive 47-7 victory over Sabinal here on Barry Field last Friday night.

Fullback Johnny Windrow led the night's scoring parade with a pair of touchdowns. Quarterback Alvin Hartman unlimbered his passing arm during the night and accounted for two TD's with tosses to end Billy Neuman and halfback Butch Woolls. Hartman's pass to Neuman was good for 65 yards.

Other Hondo touchdowns were scored by Hartman, Louie Lasiter and tackle John Shepperd. Shepperd recovered a Sabinal fumble in the end zone on a heads-up maneuver to score his six points for Hondo.

After kicking off to Sabinal to open the night's activities, Hondo took over on its own 26 yard line following a Yellowjacket punt. The Owls proceeded to drive 74 yards in nine plays for a touchdown with 6:45 still left in the first quarter. Windrow climaxed the drive with a two yard burst over center for six points then kicked the extra point. Halfback Ray Highsmith gained 38 yards in the drive goalward, Hartman, 23, and Woolls nine.

Sabinal couldn't move the ball on its next try either and was forced to punt again. Hondo took over on its own 35 this time, and in only four plays, racked up another touchdown. Windrow picked up two, Highsmith seven and Windrow lugged the leather again for 10. A 15 yard penalty on the next play set Hondo back to the Owl 41. The Owls were not to be denied this one however and Hartman fired a pass to Neuman, who gathered it in on the Sabinal 35 and raced all the way for a TD. Windrow's extra point try was no good this time and Hondo led 13-0 with 2:20 showing on the first quarter clock.

Hondo started a 67 yard drive for its third touchdown just as the first quarter was running out. Fullback Windrow blasted over from the 4 yard stripe with 9:01 still to go in the second period. His extra point kick was blocked, and the score remained, 19-7, in favor of Hondo.

A pass interception by an alert Billy Neuman set up the fourth Owl touchdown. Neuman took the pass in on his own 28 yard line and returned all the way to the Sabinal 46. It took the Owls only five plays to move the 46 needed yards to paydirt, and Alvin Hartman smashed across the double-stripe from one yard out for the TD. A 25 yard run by Highsmith and runs of 16 and four yards by Woolls sparked the drive. The score came only 2:36 before the half.

Tackle John Shepperd recovered a stray fumble in the Sabinal end zone with 4:01 left to go in the third period to give Hondo a 32-7 lead over the visiting Yellowjackets. Fullback Sidney Mercer plunged over from two yards out for the extra point and Hondo led 33-7. (The Hondo second team played most of the third and final periods.)

Hondo's next touchdown came just after the opening whistle of the fourth quarter. The Owls took over on their own 22 following a Sabinal punt out of bounds at that point. Hartman passed to Woolls for 28 yards to end the drive, with 10:52 still to go in the game. Windrow's extra point kick was good and the Owls went further out in front, 40-7. Woolls was the big gun in this drive, shaking loose for runs of 15 and 20 yards and gathering in a Hartman pass for 20.

Louie Lasiter accounted for Hondo's final TD of the night with a three yard spurt over center with only 4:05 left in the ballgame. Mercer made the extra

point with a two yard blast over the middle.

Sabinal scored its only touchdown of the game in the first quarter of the contest, its first of the 1956 grid season. Oddly enough, the touchdown was the longest of the night, covering 70 yards. Quarterback Sonny Hayes fired a 10 yard pass to end Preston Word, and Word scampered 60 yards for the touchdown, outracing almost the entire Hondo team.

NAACP Activities Receive Stop Order

AUSTIN, Tex. — Activities of the National Association for the Advancement of Colored People have ended temporarily, in Texas.

A stop order was issued at the request of Attorney General John Ben Sheppard by Dist. Judge Otis T. Dunagan of Tyler. Hearings will be held Friday (Sept. 28).

Investigations of the NAACP, a New York corporation with 112 branch offices in Texas, have been going on quietly for several months. Climax came with the filing of charges alleging numerous violations of Texas laws.

Specifically charged were efforts to register Negro students in Texas schools, contrary to the laws of the State; inciting racial prejudice, picketing, riots and other unlawful acts, contrary to public peace; engaging in political activities; operating without a permit; evasion of taxes; practicing law without a license; and coercing Negro students and their parents.

"Transaction of business in Texas, by a foreign corporation, is only a privilege which the State of Texas may confer, extend, or withhold," said Sheppard.

This is not "in any manner" a suit against the Negro citizens of Texas, Sheppard pointed out. "It is limited to the NAACP as a foreign corporation, and their affiliated organizations. For over 100 years the white and colored races have lived together in Texas peacefully and in harmony. Were it not for the activities of the NAACP they would now, and in the future, continue to do so."

Dr. H. Boyd Hall, state NAACP president, said the move indicated that Texas is entering "an era of persecution." NAACP officials immediately called a 7-state meeting for St. Louis.

Although the principal headquarters of the NAACP is in Dallas, the suit was filed by Tyler because a number of defendants are in that area.

State Income Up

State income jumped nearly \$75,000,000 during the past year but increasing expenditures are expected to consume it all and more too.

Revenues totaled \$913,422,792 during the fiscal year, State Compt. R. S. Calvert reported.

A state budget spokesman said the present spending pattern and new demands will likely require a new tax bill at the next session of the Legislature.

Requiring more money are growths in public schools, junior and senior colleges, prisons and hospitals. Proposals for increases in teacher retirement benefits and aid to disabled persons are to be voted on in November.

Gap is estimated variously from \$5,000,000 to \$30,000,000.

Road Money Earmarked

For the first time, right-of-way on Texas' interstate highway system will be purchased with federal-state money instead of city and county money.

An initial fund of \$19,366,10 for such purchases has been established by the State Highway Commission. Texas put up 10 per cent; the federal government 50 per cent.

Included in the current program are 637 miles of new work costing an estimated \$256,000,000.

Oil Flow Cut

Reduction of 75,190 barrels daily in Texas' premissive oil flow was ordered for October by the Railroad Commission.

This trims the allowable to 3,279,697 barrels daily with wells operating 15 days during the month. One commissioner, Olin Culberson, wanted to go to a 16-day pattern. He expressed unhappiness with the depressing influence of imports on the Texas allowable.

Jobs For Handicapped

Texas employers put more handicapped persons on jobs last year than ever before — 24,445. Applications increased, however, from 6,727 to 14,004.

Laurence R. Melton, chairman of the Texas Committee for Employment of the Physically Handicapped announced the figures.

Gov. Allan Shivers presented merit awards to three employers for their consistent hiring of handicapped persons. These were Sears Roebuck, Hammond Laundry and Machinery Co. of Waco, and Howard Aree Co. of San Antonio.

Earl Brown Jr., Abilene, was designated the handicapped person of the year. A special award went to Adolph L. Stein Jr., Kelly Air Force Base.

Reserves Polled

Questionnaires are being mailed to all standby reservists but there is no cause for alarm. Morris S. Schwartz, state selective service director, says it's just for inventory.

Standby reservists cannot be called to service unless an emergency is declared by Congress, he said.

Based on information in his questionnaire, each standby reservist will be placed in one of three categories: I-R, available for service; II-R, deferred because of civilian occupation essential to maintenance of national health, safety or interest; or III-R, deferred by reason of extreme hardship of dependents.

Crime On Increase

There has been an estimated 13 per cent increase in crime in Texas cities, reports the Department of Public Safety. Rural areas show a 2 per cent decrease.

Major increase in both areas was in theft, up an estimated 14.8 per cent. Auto theft showed a 4.2 per cent gain; burglary increased 6.5 per cent.

Decreases were in rape, 18.3 per cent; murder and homicide 1.2 per cent; robbery 1.5 per cent; and aggravated assault 7.6 per cent.

Short Snorts

Motorists are being urged by the Highway Safety Council to "police themselves" as an extra precaution against football weekend traffic hazards. H. H. Coffield of Rockdale is the new chairman of the Texas Prison Board. Fred Shields of San Antonio now is vice chairman and Dr. George Beito of Austin is secretary.

Prison authorities will ask the Legislature for \$8,825,000 for new buildings and improvements.

Gov. Allan Shivers has warned of increased forest fire hazards in the East Texas drought areas. He urged hunters to be particularly careful of camp fires and lighted cigarettes.

Commercial hatchery production in Texas rose 25 per cent in August over a year ago, the U. S. Department of Agriculture reported. Output was 8,837,000 chicks, 93 per cent for the broiler market.

Gov. Allan Shivers has designated this week as Business Women's Week, and Oct. 14-20 as Mirabeau B. Lamar Week in Texas.

Organizational meeting of the new state Democratic Executive Committee has been set for Oct. 4 in Austin.

A budget of \$50,000 has been set up by the Texas Foundation for promoting the state's attractions, beginning Jan. 1.

Elimination of slum sections in large cities would cut Texas' tuberculosis and pneumonia cases to one-third their present figure, according to State Health Commissioner Henry A. Holle.

SPEAKING
OF
SPORTS

By Dr. John H. Jennings

The Hondo Owls ran their undefeated streak to fifteen games last Friday night in an easy 47 to 7 win over Sabinal.

The Hoots (the future Owls in Junior High) kept things going Saturday night by winning a 19 to 0 game from the Sabinal Larva.

Sabinal Scrimmage

The game last Friday was more of a scrimmage session than anything else. While not wanting to take anything away from the fine Sabinal boys, it was a very one sided affair. It was hard to do your best in a game of that nature and the Owls on too many occasions were far from balls of fire. Not that it mattered for that particular game, but it WOULD matter if the Owls got lax in the same manner against foes like Uvalde or Pearsall.

Tackling And Protection

The tackling and protecting their passer, to give Alvin a bit more time to aim, MUST improve for the game against Uvalde. Hartman completed a most respectable 4 for 7 passes but he was rushed on occasions . . . and on two instances he had a man open for 6 points to throw. Big Alvin just throws better when he can drop back . . . get set . . . and throw . . . better than on the move. The Owls will need ALL their guns working for Uvalde. The boys up front in Wiemers, Tilley, Ward, Schweers, Balzen and Windrow must bow their necks, individually and collectively, to exploit the full asset of the good passing attack they could have. It takes 11 men working together to complete a pass. The Owls have a fine weapon here . . . make it work and it will make Uvalde loosen their defense and more vulnerable to a running game. The Uvalde offense should be as good or better than Del Rio and the Owl tackling will have to stick more effectively to make the evening a success.

About Uvalde

Uvalde lost their opeger to Alpine (they received 220 yards in penalties) 20 to 14 but last week had an easy 33 to 0 win over hapless Crystal City.

The Coyotes will run from two formations . . . the single wing and from the "T". 160 lb. Spring is the tailback in the single wing. 165 lb. Suttle is the "T" QB. 190 lb. Collier is a fine back and another 165 lb. boy rounds out the backfield.

Lot At Stake

The Owls have a lot at stake in the game and should have plenty of incentive to do all out like they did against Del Rio.

First, the Owls have one of the state's longest undefeated records going with a chance to make it much longer if they can get by this one. Second, if the Owls can beat another AAA team, it will up their stock in the Class A State rating and that will give Hondo some publicity. Third, the long traditional series between the Owls and Uvalde is all tied up at 15 wins apiece. So, a win could be a gift to ALL the past Owls, for it would put Hondo ahead in the series.

Fourthly, the Owls have won two in a row from the Coyotes and up to now neither team has ever won three in a row from the other! All this, plus other reasons, should be enough to fire the Owls for an all out effort.

The Sabinal Doings

The Owls went 68 yards on the ground the first time they got the ball for a TD. Highsmith carried 4 times for 34 yards, Hartman 2 for 23, Woolls 1 for 9 yards and Windrow got 2 yards for the marbles.

The next time Hartman ran Windrow twice for 13 and Rambling Ray once for 7, then fired an oh so beautiful 30 yard pass to Billy Neuman who ran 30 more for the score. It was a perfect pass . . . Alvin took HIS TIME and put it on a string over Neuman's shoulder. The first quarter ended 13 to 6. Sabinal got it's TD on a jump pass to the left end over the center and away he went on a 70 yd. TD jaunt. The Owl first string was the victim too.

The third counter came the next time the Owls got possession. The second Owl unit failed to go on two tires so Woolls comes in to run for 16. Hartman got 12 and Windrow 8 before Alvin tosses a 40 yard pass gainer to Neuman to the 8. Windrow then went over for the TD from 5 yards out.

Billy Neuman started the next Owl tally by running back an intercepted pass 30 yards to about mid-field. Windrow drove for 4. Highsmith kicked in 18. Woolls plugged for 16 and 4 and Hartman went over from the 1. The half ended 26 to 7 with the second unit getting just a little action.

The Last Half

The last half saw the Owl second unit of Johnny Meyer, Sidney Mercer, Louie Lastier, Jimmy Leazenby and Louis Schmitz man the backfield. The line

was composed of Jimmy Timmerman, Butch Smith, John Korb, Tom Schulte, Parker Meyer, John Shepperd, Joe Torres, Bobby Swatzell, Bennie Zerr and Bobby Taylor.

The fifth TD found 84 yards consumed. Hartman loped off 18, Rambling Ray 28, Lasiter got 10, Leazenby had two 9 yard runs, Mercer plowed real good for 9 than Lasiter got 4 before the Owls lost possession on a fumble. Sabinal returned the fumble, however, as Tackle John Shepperd played alert by hopping on the ball for 6 points. This ended the third quarter's scoring at 33 to 7.

The next score came easy as Woolls and Hartman accounted for 69 yards in 4 plays. Alvin tossed 21 yards to Butch to start it, then the Little Bull pushed for 20 before Alvin found him for a 28 yard TD pass play. Clyde Bohmfalk cleared out the last defender on the five that gave Woolls an unmolesated path . . . Tackle Bull Balzen improved his blocking in the game.

The second Unit played all but 1 1/2 minutes of the final quarter and got a final TD on their own. Leazenby got 3, Mercer 5 and Louie Lastier carried for three consecutive 5 yard gains for the score. Windrow came in to get his fifth of 7 conversion attempts.

The Owls got off 60 plays to 40 for Sabinal. The first string ran 39 plays and the second unit 21. The individual records above show how equally divided the ball carrying chores were handled.			

About Koch

Tommy Koch got a hard break in the game . . . he had to miss the Del Rio game due to a bad knee . . . he scrimmaged hard the week before the Sabinal game and hopes were high that he would be ready for Uvalde. He was playing a outstanding game against Sabinal when it happened again . . . knee trouble. There was no contact . . . it's just that Koch turned and his knee didn't, or vice versa.

It is a hard blow for the Owls but it is even tougher on Tommy. This is his last year and he could make it a real good one. It is a spot in a boy's life that is the climax to all his efforts . . . and a thing you cannot recapture when it is past. We hope Tommy will be lost for only a short while . . . In his absence, maybe the Owls will put out just a little more . . . not only for Koch, but because they are fortunate enough to be out there in good shape to give it all they've got.

Hoots Win Opener

Coach Bob Nations' Hoots made a successful debut in Sabinal last Saturday night and came home a 19 to 0 winner.

This was the first game of any type for a number of the boys and it was an experience they will long remember. Of course the boys were a bit nervous and green, but they looked pretty good for the first time around.

Coach Nations had a shock when his "big boss" 180 lb. ninth grader, Charles Neuman stepped in a hole on the kickoff and was out for the rest of the game with a twisted knee! Cliff Sadler was the QB and he did a fine job and should improve when he settles down and gets accustomed to the job. He does a fine job punting, handled the kick-offs and threw an excellent 25 yard TD pass to Mike Moore who made a beautiful catch.

With Neuman out, Mike Moore was the workhorse . . . he must have carried 75 per cent or more of the plays, and he did a real fine job. His play was outstanding for the Hoots.

Cliff Sadler made the first TD on a 1 yard QB sneak. The score was set up when a fourth down Sabinal punt failed to get off. The punter must have been very excited for his foot MISSED the ball and the Hoots took over on the Sabinal 25!

Kenneth Heyen came up with two nice runs. He intercepted a pass near the Sabinal 45 and went to the 15. Then on the second half kickoff he took off from the 35 and went 65 yards for the score. Mike Moore carried over for the extra point.

Comets Lose 20-6 To Comfort Friday

A pair of Comfort backs, Charles Cotrell and Milton Dietert, teamed up to claw out a 20 to 6 victory over the Castroville Comets last Friday night at Comfort. Dietert threw two touchdown passes and tailback Cotrell exploded up the middle for the other Bobcat touchdown. Groff scored early in the game for the losers.

The Bobcats took the opening kickoff but were quickly halted by the Comets. Groff and Lutz moved the ball quickly from their own 34 down to the 20, from which point the stocky Comet tailback cut off left tackle and went over the goal to put the Comets in front 6 to 0. Before the Comfort team could get rolling, Steve Haby intercepted a Bobcat pass and it looked like the Castroville boys were going to roll to another easy victory. But Groff injured one of his back muscles and could not generate his usual running steam. He took to the air but couldn't find his receivers.

The Comfort boys caught fire as Cotrell got behind the Comet secondary, took a pass on the 30 yard line and raced over to tie up the game. After holding the Comets, the Bobcats began to

give them a dose of the same kind of single-wing medicine that the Castroville boys have been giving their opponents. Again it was a Dietert to Cotrell pass that was the key play in setting up the touchdown, and Cotrell ate up most of the other yardage on sweeps and up-the-middle plunges, the last for 8 yards and their second score. Sheppard added the extra point and the Bobcats led at the half 13 to 6.

With Groff and senior linesman Dennis Haby out, Coach Harold Keller had to dip into his thin reserves, as he shifted Francis Lutz to tailback and end Justin Jungman to the wingback position. This left the Comet with an inexperienced line and the Bobcats took quick advantage of it to push across another touchdown early in the third quarter. This time it was a pass from Dietert to Roy Marquart that covered the last six yards. Again the try for point was good and the Bobcats were out in front 20 to 6.

That was the end of the scoring.

The Comets began to roll again as Francis Lutz moved well, showing great promise for future games, but the Comets kept being stalled by off-sides penalties as the inexperienced linemen kept lining up off-sides. In the waning minutes of the game, the Castroville boys moved into scoring distance, but the Comfort line held them for downs on the 15 yard line and then ran out the clock.

The Comets came out on top in the first down and rushing departments as they picked up 14 first downs and moved 249 yards in 57 carries. Lutz had the big share, 143 yards in 27 tries. The Comets tried six passes and completed only one for a net loss of three yards. The Bobcats threw nine passes and completed five for 90 yards. They got 11 first downs and moved 173 yards in 27 carries. It was their tailback, Cotrell, who gained the most as he rolled 125 yards in 15 attempts.

This week, the Comets tangle with St. Gerard's in their first league game.
